Meeting Notes (Old/New Business, Decisions, Agendas)

No new members.

Approval of Minutes – Dave motioned, Steve seconded. No objections. Minutes approved by consensus.

Treasurer's report – Very little change or new claims so far. Vouchers were submitted and will be paid on the next available date. Spreadsheet is passed around. No questions.

Need membership forms from some.

Chuck- membership forms are not JUST for those grantees, but others as well.

Nikki- no Healthy Kids Day this year, may have another event later on.

4H Discussion- Fair is a way to give away items, connect with people, and get surveys. Do we want more coloring books; can others donate items to give away?

Chuck- maybe we could do the bean bag toss.

Nikki- Kathy had bean bag toss.

Rick- do we need a game?

Chuck- the kids usually play the games. Maybe have a small easy game.

Steve- while the kids play we can get surveys done.

Jean- will donate stuffed animals for the fair.

Chuck- may be able to contact Autumn, who was on the call last time, she said they may have giveaway items. May contact Charles and ask about giveaway items. Do we want a bean bag game?

Rick- has a spinning board, may be able to use that at fair.

Website discussion- developer was transferring everything over and did not get it all yet. Like the Facebook page and keep checking website. Website will be updated soon.

NaloxBox discussion- 2 free Naloxboxes are available to each county, Overdose Lifeline has reached out and asked about help finding locations in Cass County. The Naloxbox has 24-hour availability of Naloxene. May be able to ask Rick Baer, fire chief since the fire station is a neutral location and may feel safer than a police station. 9th and North Street could be an option- Rick Southwell could be contacted.

Ed- heat map shows mostly Logansport, may not be necessary for outer towns like Walton or Royal Center. Maybe Galveston?

Nikki- Walton library was a no, tried to email health department (no answer), tried Royal Center library (no answer), tried to contact a couple churches (no answers).

Chuck- could go in and talk to Logansport library.

Nikki- they usually do not allow anything there that doesn't pertain to their library in times past. Maybe a barrier could be stigma? Depending on location people may not feel safe enough to use it. What if someone steals the Naloxene? Will it be used by the average citizen or for emergency use?

Dave- maybe get more information.

Chuck- would like a call with Amanda to talk about it more and maybe how Kiwanis could help. Naloxene is available for free, or at least it was.

Shift Happens is an online training and you can get as much as you want.

Overdose Lifeline should have for free and Pharmacies may still be free.

Maybe pharmacies could post a box outside? That could be an option.

Other Updates and Reports:

Chuck- workbooks were bought for WRAP program.

Rick- passed around W.A.I.T. book for everyone to look at. Will be extending beyond the school year to offer camps throughout the summer also. Using LCC and United Way monies along with the YMCA to fund.

Nikki- fair signup sheet is going around, be thinking how you can help.

Adjournment:

Steve motioned and Chuck seconded a motion to adjourn. Approved.
